| • Find books to read to younger children that teach respect for animals  
• Create an ABC book of endangered animals and ways to help  
• Write essays from the perspective of endangered animals seeking human assistance  | • Visit an animal shelter or volunteer and learn about its role in the community  
• Research government agencies that oversee endangered animals  
• Study the development of our relationship with animals and the inception of organizations to protect animals  | • Find out about animal rescue projects run by kids in different countries and correspond by email  
• Create multilingual informational brochures about a local endangered animal  
• Make presentations to other classes in the language being learned on a topic related to protecting animals  |

| • Write and perform plays with animals as characters teaching about their care or how to protect them  
• Learn and perform songs that show respect for animals and nature  
• Use drawing, painting, photography, or any visual art medium to create an art show of animals in both dangerous and protected environments  | • Develop a budget for the weekly cost of pet care  
• Study how animal shelters are funded and maintained  
• Learn how statistics are used to determine population sizes, and track and compare statistics on changes in the status of an endangered animal  | • Research pet care, including nutrition, physiology, and psychology; also learn about and compare to their relations in the wild  
• Learn about endangered animals in your region and groups that work to help them  
• Visit a natural wildlife habitat to make observations, learn about the ecosystems, and ways to protect the animals living there  |
